ERIBA Caravans

2019

Individual independent travel
A prime example of efficiency

The Touring caravan from ERIBA.

The unique and timelessly elegant design of the ERIBA Touring is no accident. The exceptional concept featuring a steel frame located beneath an aerodynamically designed aluminium skin has its origins in the aviation industry and was perfected by an aeronautical engineer over 60 years ago.

The Touring’s aerodynamic front section has numerous benefits for you on your travels, including lower air resistance and fuel consumption, as well as greater driving safety and perfect roadholding characteristics. Discover a premium quality, fuel-efficient and compact travel pro that’s more than earned its cult status.

Note: some of the equipment shown is optional and depends on the model range/layout.

Celebrating 40 years of exceptional design

The PUAL design from ERIBA.

The foundations for the unique outer shells made by ERIBA were laid back in 1978 when closed-cell polyurethane foam was extruded between an aluminium outer shell and an interior, high-grade plywood panel for the very first time.

The highly efficient PUAL design has its origins in the aviation industry and is made possible by a special two-component adhesive. In conjunction with special materials and composites, it withstands extreme loads, increases the service life of the structure and minimises road noise. The so-called “adhesive edge”, which connects together all of the main parts of the vehicle, is a crucial component. It acts like a shock absorber and counteracts all the centrifugal and torsional forces that occur while driving.
Bodywork and safety
Be prepared for all eventualities with ERIBA.

**The ERIBA Touring highlights**

- High degree of driving stability with perfected roadholding characteristics
- Low height on the road (235 cm)
- Crash with independent wheel suspension and shock absorbers
- Automatic brake adjustment
- Streamlined tubular steel construction
- Anti-vibrations with automatic strain device and automatic reversing mechanism
- Pop-up roof with 26 m² sandwich insulation and 1.05 m of headroom

**LED lighting**

The extremely lightweight articulated awning with integrated LED light fits compactly to the rear of the roof without hindering the caravanner any wider. The optionally available side and front sections offer additional protection from sun, wind and rain.

**Air circulation**

All overhead lockers have a vent at the top as standard, through which warm air can circulate freely. This ensures that major temperature variations and unwanted condensation in the interior can be avoided.

**LED lighting**

Energy-saving LED lights are installed throughout the vehicle for low power consumption. The LED ambient lighting is optionally available as an overhead locker trim.

**Safe Close**

All kitchen drawers are roller mounted for an easy ‘smooth’ action. They feature high-quality self-close closing mechanisms and smooth push-blots which prevent the drawers from opening and cycling when the vehicle is in motion.

**Space for bicycles**

The optional roof rack accommodates two bikes securely on the drawer, and folds back easily to allow access to the front storage area.

**Hinter**

The warm and cozy hot-water central heating system of the ERIBA Nova guarantees an unrivalled level of comfort without any draughts. Thanks to the convector heaters integrated in the furniture, all can circulate freely and imperceptibly, ensuring a uniform temperature distribution. Combined with the hot-water floor heating, you couldn’t be more snug.

**Entertainment on the move**

The optional ERIBA SMART-Multimedia package includes a 22” LED TV in the living area and a 19” LED TV in the sleeping area as well as a DAB+ box. This allows simultaneous use of the television in the living area and the radio in the sleeping area, for example.

**Sleeping comfort**

The ERIBA comfort sleeping system with high-quality adjustable bed frames is available as an optional extra and maximizes the benefits of the multi-axes cold foam mattresses. Each area of the story is supported with the ideal counter-pressure for a snug and restful sleep.

**raum® System**

The innovative ERIBA raum® system gives you even more comfort and space. Within the same dimensions, completely clear storage spaces, large overhead lockers and the cellar space below the beds and seating ensure a huge amount of extra storage as standard. The raum® system also accommodates two-metre-long beds, a U-shaped comfort seating area and a roomy bathroom.
ERIBA Touring

The cult caravan for individualists.

ERIBA Touring caravans have acquired cult status. They are notable for their low dead weight, compact dimensions and low overall height, and their pop-top roof and superb roadholding characteristics are legendary. The vehicles come with an exclusive equipment package which ensures both comfort and maximum safety. A practical furnishing concept with a high-quality interior and an exclusive design – in the living and sleeping area, kitchen and bathroom – make travelling with the ERIBA Touring an unforgettable experience.

A small-scale space sensation.
The ERIBA Touring with its pop-top roof boasts a headroom of 1.95 metres. The interior has a very welcoming feel, with cleverly designed furnishings in the warm Trentino Pear Wood furniture finish.

Living area and kitchen
Inspiring interior design on wheels.

More space for preparation.
The side flap acts as a worktop extension and combines with the optional sink cover with chopping board to create a large work surface.

Stowage space galore.
All fixed beds open up wide and are kept securely in position by spring struts. That way the huge bed boxes are easily accessible – both from inside the caravan and from outside through the exterior locker door on the awning side (optional extra depending on model).
Sleeping and bathroom
Charming interior concepts.

Maximum sleeping comfort.
Traveling doesn’t have to mean compromising on sleeping comfort: in the ERIBA Touring, restful slumbers are guaranteed thanks to cold foam mattresses or optional innerspring mattresses with soft drill covers.

Everything in its place.
The bathroom is equipped with a height-adjustable mirror, a shelf with tensioning straps to store utensils, a towel rail and a bench toilet.
A cult caravan celebrates its birthday

The ERIBA Touring “60” Edition.

The absolute highlights of this unique travel companion, which features first-class fixtures and fittings, are plain to see: the distinctive two-colour paintwork and an attractive equipment package. The lower section of the smooth metal is finished in Crystal Silver, and the upper section in Carrara White. The matching bicolour rims are perfectly colour-coordinated.

The same is true of the “Grand Oak” furniture style collection. The bright, modern oak furniture finish has been beautifully combined with white, high-gloss locker doors and chrome handles. The harmonious overall appearance is rounded off by the plain-coloured Janeiro or Cusco fabrics, which are transformed into truly eye-catching features by their sophisticated, modern button design. Unparalleled seating comfort is ensured by the comfortable cushions, which feature a high backrest and lumbar support. The work surfaces and tabletops are also modern and yet easy to keep clean: an anti-fingerprint coating has been applied to them.

ERIBA Nova GL
Strikingly beautiful, beautifully practical.

The ERIBA Nova GL boasts unique comfort features and top functionality combined with excellent practicality. The Grand Oak Wood furniture finish radiates a classically stylish atmosphere. The new multifunctional rear lights are an eye-catching feature, echoing the three bars of the ERIBA logo when illuminated. The raum+system guarantees more space and freedom of movement within the same dimensions. Highlights of the Nova generation include its outstanding body shell design, minimum bed length of 2 metres, practical service installation systems and winter resistance. The ERIBA Nova GL is the ideal caravan for winter camping, thanks to features such as the PUAL high-tech body and frost-protected plumbing and wiring.

• Nova 485 GL
• Nova 545 GL

PUAL body shell design: optimal insulation, absolute stability
raum+system: for added stowage space
Excellent insulation thanks to 51 mm sandwich floor
Rounded or square upholstery corners (optional depending on model)
More freedom of movement with 1.98 m headroom
LED rear lights with hybrid technology
Panoramic view.
Enjoy the best views thanks to the large panoramic roof. It makes the interior feel even more light and spacious. This is where you can make the most of the sun during the day and the star-studded sky at night.

Living area and kitchen
Caravanning with a touch of luxury.

Easy opening and soft closing.
The modern kitchen features drawers with Soft-Close function for storing a range of kitchen utensils. Even complicated five course meals are no problem at all thanks to the stove, oven and grill tray.

What more could you wish for?
From the modern design down to the smallest equipment detail the ERIBA Nova GL leaves nothing to be desired when it comes to creating an attractive living environment.

Home from home.
The Nova 485 GL feels almost like your living room at home thanks to the seating area in the light Grand Oak furniture finish.

High-quality pull-out drawers.
The large, sturdy pull-out drawers and cutlery compartment with Soft-Close mechanism provide plenty of space for all your crockery and cutlery. The drawers and pull-out compartments can be readily removed in one easy step.
Sleeping and bathroom

A world of wellness to suit every taste.

Just like home.
The removable, washable drill covers conceal high-quality cold-foam mattresses that guarantee home-from-home sleeping comfort. The large fixed beds in the rear of the Nova GL 485 provide comfortable sleeping quarters for two adults.

Bath and shower.
The side bathroom in the Nova 485 GL is an oasis of well-being and a real eye-catcher too, featuring luxury shower fittings and fixed shower partitions.

Secure storage.
The bathroom in the ERIBA Nova 485 GL boasts an array of open and closed shelving and cupboards for secure storage of all your items.

Systematic space saving.
The innovative raum+system of the ERIBA Nova gives you even more space and comfort within the same dimensions. Completely clear stowage spaces, large overhead storage cupboards and the cellar space below the beds and seating ensure a huge amount of extra storage.

Efficient air circulation.
All overhead storage cupboards have a void at the back through which warm air can circulate freely. This ensures that major temperature variations and unwanted condensation in the interior can be avoided.

HYMER Original Parts & Accessories are not available direct from the factory, but are ordered and retrofitted exclusively via your HYMER dealer. You can find the full range of HYMER Original Parts & Accessories online at https://www.hymer-original-zubehoer.com/en

The HYMER E-Bike

The HYMER E-Bike by FLYER gives you even more mobility while on holiday. Based on the Flogo model with a conveniently low, easy-mount frame and 250-W Panasonic motor, the e-bike fits easily into the rear garage thanks to its compact size and smart handlebar and pedal folding mechanisms. You’ll be impressed by its high-quality craftsmanship and excellent handling, not to mention the generous warranty, e.g. 10 years for the frame.

Always to hand

The rotary clothes dryer developed especially for the ERIBA fits perfectly onto the rear manoeuvring handle. Made entirely of stainless steel, it is easy to assemble and absolutely stable. Available for all ERIBA models.

An invitation to dream away

The HYMER slumber set consists of the following:
1x HYMER performance duvet, 1x HYMER performance pillow and matching bed linen in migratory birds or paisley patterns (including a complementary cushion).

Light and shade

Extending out 3 metres, the ERIBA Touring canopy provides lots of shade and extra living space. It can also be supplemented with front and side sections.

Tailor-made for the winter

The winter tarpaulin specially designed for the ERIBA Touring is a perfect fit and can be attached in just a few minutes. It is made of a breathable, light and especially strong material.

The classic 2.0

A cozy extra berth for children can be conjured up in next to no time with the ERIBA Touring child’s bed.

Space for bicycles

Specially designed for the ERIBA Touring, the tow bar bicycle rack securely accommodates 2 bikes, and folds back easily to allow access to the gas locker.

Lock out the cold

The ERIBA Touring and Feeling pop-top roof insulation means you can still use them even in winter. Attached with Fidlock magnets.

Travel is always in fashion

Enjoy being active and discovering new places? Wherever your journey takes you – there is the perfect outfit from HYMER.

For a perfect retro look

The high-gloss hubcaps from the ERIBA Rockabilly special model really cut a dash with their unique appearance and are the perfect match for the retro look of the ERIBA Touring model range. Their nostalgic look makes them a real alternative to alloy wheels. Mounting the hubcaps is incredibly easy – they are simply snapped into place. Furthermore, corrosion is not an issue thanks to their stainless steel design.

Roof awning with LED

The extremely lightweight articulated awning with integrated LED light fits compactly to the curve of the roof without making the caravan any wider. The optionally available side and front sections offer additional protection from sun, wind and rain. A dimmer is also available for the awning lighting.
Note
This brochure describes the series status at the time of publication. Despite careful checking of the contents, misprints cannot be ruled out. We reserve the right to modify the equipment or make product improvements during the course of the model year. Before signing a sales contract, please ask one of our authorised HYMER dealers about the current product and series status.

Some vehicles are shown with optional extras which are quoted in the current price list and available at extra cost. The decoration shown is not supplied by HYMER. The details of scope of delivery, appearance, performance, dimensions and weights are valid at the time of going to press – deviations within the factory tolerance limits (max. +/- 5%) are possible and permissible.

This data complies with European homologation regulations, which may change up to the time of vehicle purchase or delivery. Your HYMER dealer will gladly provide you with information on any changes and the standard scope of delivery.
